Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

Regarding claims 1 and 7:

The primary reason for the allowance of claims 1 and 7 is the inclusion of the sensor element select means including a first switching means for controlling the connection between each of the sensor elements and the ground, and the sensor means is a unit that includes a built-in second switching means for controlling the connection between each of the sensor elements and the output means. It is these features found in the claim, as they are claimed in the combination that has not been found, taught or suggested by the prior art of record, which makes this claim allowable over the prior art.

Claims 2 and 4-6 are allowed due to their dependency on claim 1.

Claim 8 is allowed due dependency on claim 7.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
